

Dear President and National Representative,

We are very pleased to inform you that the 13th EFLM Postgraduate Continuous Course in Clinical Chemistry and Laboratory Medicine: New Trends in Diagnosis and Monitoring Using POC Instruments, is now open for registration (www.dubrovnik-course.org/registration). Please pay your attention to the date of the registration fees: 130 Eur before, and 150 Eur after September 1, 2013.

The Course will be held at the Inter-University Centre Dubrovnik on 19-20 October, 2013 with goal to bring the latest news on POC testing in the health care to the clinical chemists, specialists in laboratory medicine and medical doctors. The complete programme and all information about it can be found on the web (www.dubrovnik-course.org).

For the first time this course is open for the poster session. The participants are invited to submit their posters before August 1, 2013. 2-3 posters will be chosen for short oral presentation. All information please find on the Course web site. The best poster chosen by Scientific and Organising Committee will be awarded.

The EFLM announce bursaries for young participants (<35 year). Applications should be submitted by July 1, 2013. The documents listed below are required along with application.

1. Passport scanned (proof of the age of the applicant) in jpg or pdf
2. Letter of support from National Society, signed by the President and scanned (as pdf)
3. List of publications

All applicants will be notified about the results by e-mail after July 15, 2013.

The course will be credited by National Society rules and UEMS.

We are hoping to welcome you in Dubrovnik where you will have an opportunity for an interactive discussion during the Course official time as well as during social events.

Best regards,
